01- Origins

The DromaCity association was founded in Créteil, France in 2013 by Françoise Dureuil, who was appointed as the Founding President with the status of a founding member. In this capacity, she remains a co-founder and Honorary President of all national and international branches.

02- Application for Membership in the DromaCity Network

The establishment of other national or international agencies is subject to the decision of DromaCity France, which determines whether or not to approve the creation of a DromaCity agency in a specific region or abroad.

03- Objectives and Necessary Actions to Become a "DromaCity" Agency

Countries aspiring to develop their potential and acquire the title of DromaCity must be able to meet the following requirements:

- Establish an association in compliance with the current legislation of the country and file the statutes in proper form.
- Register the association's publication in the Official Journal if such exists in the applicant country.
- Provide the DromaCity headquarters in France with the association's statutes in French or English, along with the composition of the executive committee, its organization, and its objectives, which must be validated by the headquarters in France.
- The members of the executive committee must adhere to moral rules and not have any past, present, or future difficulties with the laws of their country.
- The members of the executive committee should have a background in the world of camelids, such as breeders, veterinarians, trainers, jockeys, organizers of camel races, camel specialists, journalists, industrialists, sponsors, etc.

04- The missions of the DromaCity International agencies and Presidents are as follows:

- Develop, on behalf of DromaCity International, the recognition of nomadic culture and the dromedary through various means such as sports, music, desert expeditions, tourism, training, art, communication, event organization, etc.
- Foster and maintain privileged relationships with existing DromaCity agencies (France, Africa, Middle East). Working as a team is essential.
- Organize at least one annual event (festival, races, or other activities) on behalf of DromaCity International and its agency.

DROMACITY INTERNATIONAL

ASSOCIATION OF PROMOTION OF CAMELID & NOMADIC CULTURES

INTERNAL RULES AND REGULATIONS

- Regularly and monthly report to the Founding President on projects or achievements related to the promotion of DromaCity International.
- Seek funding to ensure financial autonomy through state grants, private sponsorships, partnerships, etc. Each President is responsible for the finances and treasury of their respective association.
- Generate resources to maintain a motivated and energetic team.

05- Image and Logo

Upon approval from DromaCity France regarding the creation of a new agency, the latter adopts the DromaCity logo and name, along with its specificities:

- The name of the country;
- The name of the region;
- The mention of Sahara if applicable.

Example: DromaCity Sahara Tunisia or DromaCity Sahara Djanet Algeria

06- Leadership

DromaCity receives international support from the agency presidents who organize and present their program of activities for the fixed season from September (year 00) to August (year 01), and they promote it to the media and government bodies in their respective countries. However, the leadership always resides with France and the Founding President. She is assisted in her decisions by the French Board of Directors and has the authority to dismiss Presidents or Ambassadors if they fail to deliver the expected work or results for the benefit of the association as agreed upon. The French Board of Directors also reserves the right to immediately revoke any President or Ambassador who fails to adhere to the association's guidelines or acts maliciously or with ill intentions towards the association, through a simple email notification.

INTERNAL RULES AND REGULATIONS

07- Ambassadors:

Ambassadors receive a signed accreditation from the Founding President and can obtain a logo, if desired, with a mention of their role and country.

These accreditations, appointing Ambassadors as honorary titles, are granted by the Founding President to individuals who have a genuine role in the development and communication of DromaCity International.

These Ambassadors, elected for one year, are required to pay a membership fee of €50/-year for the Bronze category, €250/year for the Silver category, and €500/year for the Gold category (or more as a donation) to join the DromaCity International team.

Once accredited, they utilize all means at their disposal to contribute to the promotion of DromaCity International, such as communication, websites, event organization, conferences, scientific or cultural contributions, lobbying, etc.

Always positive and creative, they play a major role in the development of the image of DromaCity International and are guardians of the association's reputation.

07- Development and Objectives:

The objectives to be achieved in the coming years include the reunification of all DromaCity branches to form a camel confederation that excels in organizing races in Africa, with a strong potential for acquiring high-quality racing or beauty competition dromedaries.

Each President and Ambassador must contribute to this development through their expertise, relationships, skills, and purchasing power.

The priority objective for 2024 is the International Year of the Dromedary: organizing a major event in one of the selected countries to celebrate the dromedary and nomadic populations, with the participation of all elected Presidents and nominated Ambassadors. The host country will organize the event and seek grants to ensure its successful implementation and the hospitality of their colleagues.

Additional information:

This regulation is translated into English and Arabic.

It is provided to each DromaCity President and Ambassador, who reads and signs a copy, which is then sent via email to the following address:
